

PRECISION MEDICINE

EXPERIENCE THE ALVERNO DIFFERENCE

ABOUT US

- Alverno Laboratories is one of the largest integrated laboratory networks in the United States. With a reputation for quality, integrity, and supreme customer service, Alverno touches over eight million patient lives each year. Our Precision Medicine offerings start with routine services - surgical pathology, flow cytometry, FISH- and expand far beyond.

WHY US?

Alverno Laboratories is your one stop shop for all of your laboratory needs. By choosing Alverno to begin the patient sample journey with routine testing, you gain access to our advanced diagnosis without sending the sample elsewhere should the need arise. We have carefully curated a full in-house testing menu and formed an innovative partnership with Genomic Testing Cooperative (GTC) to bring the latest testing in Precision Medicine to our patients and providers. When choosing Alverno, you gain access to our knowledgeable staff who are eager to answer any questions you might have. Our program also features pre-authorization services to make approvals fast and easy.
